Demographics	4
Student Learning	5
School Processes & Programs	7
Perceptions	8

Problem Statements Identifying Demographics Needs

Problem Statement 1: The student demographic committee looked at student attendance, 94%, this is significantly below our 5 year average. **Root Cause:** Our parents and students are under the impression that COVID virtual procedures are still an option for attendance. Need improved communication between administration and parents to support attendance.

Problem Statement 2: The student demographic committee noted student achievement of special education students has been consistently low and concerning. Based on our Results Driven Achievement report our SPED students are nowhere near meeting the overall goal set forth by TEA. **Root Cause:** Sped student achievement is challenging due to scheduling conflicts, lack of attendance in school whether arriving late or leaving early, SPED goals and STAAR achievement goals are not aligned, and improved communication on supports,
